Briefly describe of core duties of a U.S. Senator

The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote — The Constitution, Article 1, Section 3 (as amended). My job is to represent the people of the great State of Nevada. Senate has exclusive authority to approve—or reject—presidential nominations to executive and judicial offices, and to provide—or withhold—its “advice and consent” to treaties negotiated by the executive. The Senate also has the sole power to try impeachments and the power of the purse.

A brief statement about my platform:

Drain The Swamp – If elected to the U.S. Senate to represent Nevada, my first vote will not be for the current GOP leader Mitch McConnell, but instead, I will do everything in my power to elect a conservative. For too long, an elite in a far-distant capital has controlled us through mandates, orders, and administrative directives. It is time for this to stop and never happen again!

National Security – It is the first responsibility of our federal government. We must have secure borders and maintain a strong national defense.

America’s Debt – America’s national debt is over the \$30 trillion debt mark. We need to pass a historic tax cut, eliminate unnecessary regulations, and reduce the size of the federal government in order to get the economy going again and pay off this debt.

Right to Life – I have always been and will be pro-life.

The Constitution and Bill of Rights – These are the most important documents in American History, and they are under attack, especially the 1st and 2nd Amendments.

What makes me the most qualified candidate for this position - I believe I bring a wealth of experience from my work in local government as an elected city councilman, as a combat veteran, and as a businessman. Prior to 9/11, I was a city councilman and small business owner. After 9/11 I returned my efforts to defending our country. I had some incredible duty positions from working with the defense reduction agency to serving multiple tours in Afghanistan which broadened my perspective on our world.
